

REMARKS

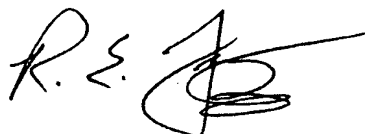

Claims 17-34 and new claims 35-37 are now in this application.

Claim 35 is a new, independent claim which contains the limitations of previously presented claims 18, 19 and 24.

For purposes of a complete response an election of the species of figure 1 has been made. However, it is noted that several of the claims, particularly 18, 19, 24, 25, 26, 28, 35, 36 and 37 are generic. Thus, if any of these claims are found to be allowable when considered against the prior art, all of the claims which are ultimately dependent on any of these allowable claims should be reinstated and allowed along with their generic parent claims.

Examination and consideration of the elected claims, plus consideration of any claims which depend on generic claims which are found to be allowable, are respectfully solicited.

Respectfully submitted,
